

The Choja-machi Koban will be integrated into the Kotobuki-cho Koban on April 1st, 2022.

The purpose of the integration

Based on "The Basic Plan for the Improvement of Kobans in Kanagawa Prefecture", we will promote the integration of Kobans in order to enhance the safety and security of local residents by improving the ability of Kobans to respond to incidents and accidents, and to improve the convenience of local residents by strengthening the functions of Kobans and operating sustainable facilities.

The post-integration security measures

The police officers of current Choja-machi Koban will be assigned to the Kotobuki-cho Koban.

The number of police officers guarding the Choja-machi district will remain the same, and we will continue to do our best for your safety and security.

The Kotobuki-cho Koban will conduct home-visit patrol and ordinary patrol, and will respond to the incidents and traffic accidents.

We are planning to deploy minivans that function as police boxes, "Portable Koban", and strengthen patrols and safety measures on school roads.
